

CBA's Training Courses

8-Hour Awareness

Course stresses recognition and identification procedures. Provides students with basic background and terminology as well as useful reference materials.

16-Hour Operations

CBA's Emergency Response Operations Level course includes defensive tactics for spill response along with hands-on practical instruction.

24-Hour Technician

The Emergency Response Technician Level course includes advanced defensive and offensive tactics for spill response as well as a full day of hands-on instruction.

24-Hour Hazardous Waste

The 24 Hour Hazardous Waste Site Worker is targeted for individuals engaged in federal, state, or municipally licensed hazardous waste operations. This course complies with 29 CFR 1910.120 and EPA guidelines.

40-Hour Hazardous Waste

The 40 Hour Hazardous Waste Operations and Construction Operations course is geared towards general site workers engaged in the removal and or treatment of hazardous waste. The course also covers general construction safety covered under 29 CFR 1910.126

Confined Space

This course includes recognition of "permit required" confined spaces and the entry procedures associated with these spaces. An advanced course is also available to provide confined space rescue procedures.

Incident Command

CBA's Incident Command training course incorporates a tabletop city for simulating actual or circumstantial incidents. The tabletop city "Hazardville" can be customized to include various types of facilities.
